 Date of Survey: Commenced:
 Completed:

(b) (f) (g) (h) Description of monument found at this corner and if it was accepted, state all evidence (material, testimonial, occupational, plats, records, other monuments) used as a basis for accepting. If not accepted or if nothing was found, state evidence used as basis for establishing location. If re-established through lost corner proportionate methods, indicate all monuments, distances and directions used to establish. Indicate type of monument and sign post found or set.

This is a perpetuation of a previous USPLS Monument Record by Dennis B. Roberts, RLS dated December 3, 1997 and filed in the office of the Oneida County Register of Deeds. A complete history of the corner can be found on the previous monument record. I accept the previous location as a true and faithful perpetuation or reestablishment of the original corner location and further perpetuate it as follows.

June 19, 2013: Prior to road construction, I found and accepted the record monument, a railroad spike 1 ft. West of the centerline of County Highway Y. I performed a GPS observation referenced to the WISCORS GNSS Network. I found or established accessories as shown below.

August 1, 2015: Following road construction, I returned and set a cotton picker spindle at the corner point from the reference monuments established previously. I performed a second GPS observation referenced to the WISCORS GNSS Network. The coordinates shown are the mean of the two observations that differed by 0.04 ft.

(c) (d) (e) Plan view of corner with ties to at least 4 witness monuments. If in disagreement with previously established corner, show the distances between the two corners and also indicate the ties to the disputed.
