

# U.S. PUBLIC LAND SURVEY MONUMENT LOCATION RECORD

Recorders Data

CORNER: NW Section Corner SECTION: 11 TOWNSHIP 37 NORTH RANGE 5 EAST/WEST

FOR M.C. CORNER INDICATE: NAME OF WATERWAY N/A SECTION LINE N/A

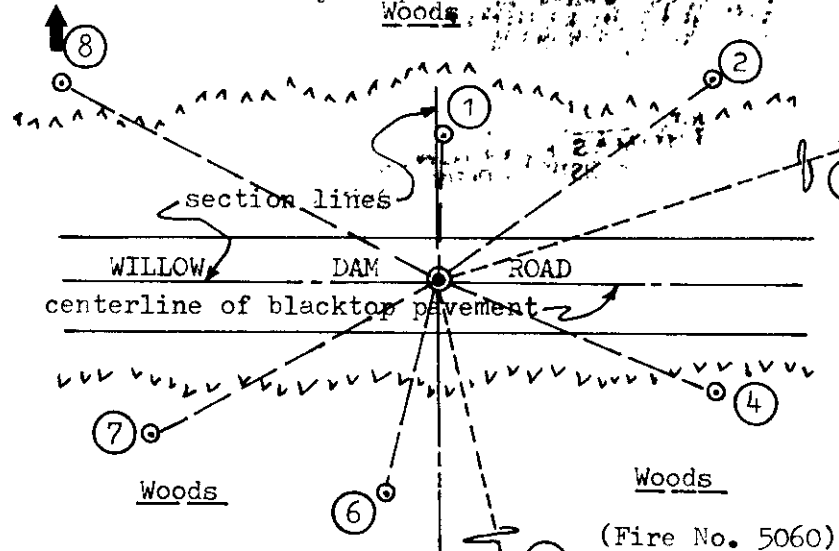

(CITY)(VILLAGE)(TOWN) OF: Little Rice COUNTY OF: Oneida

Description of monument found or placed and all other evidence used as a basis for monument location; including all monuments and related measurements required if the corner location is reestablished by lost corner proportionate methods. Also indicate name of original surveyor, survey date, corner monument set and established bearing trees, witness or reference monuments with ties from available records.

No corner monument evidence observed nor detected within blacktop roadway at this corner location, so I reset the corner with a 3/4" dia. by 12" long steel shaft driven flush in center of pavement by record distances from record BTs noted by Maine in 1937 per Oneida County survey records. In 1863, Jenkins/GLO set a wood post as the corner and marked BTs, an 8" Bw OBT N25°W 33 lks and a 10" Aspen N29°E 35 lks, which are all now obiterated. In 1937, Maine set a pine post at corner in center of existing roadway and noted new BTs, a 14" Pw S12°E 1.75 chains, now as described in new ties below, and a 16" Pw N72°E 2.556 ch, now as described in new ties below, also with a plain lower face blaze fissure at root crown; I nailed a standard Oneida County Do Not Disturb BT sign plate to South face at eye level. In 1967, a NEPCO survey notes a monument at corner by others and a witness corner 29' North, per map by Stuth in 1987, filed in Oneida County records; I did not find any witness corner monument at 29' North of corner location reset from 1937 record BT ties, but did find an older iron pipe as noted below 30' North. In 1974, Margitan noted that he set this corner as well from Maines 1937 record BTs with an iron pipe per his Plat of Survey, filed as B-797 in Oneida County survey records; however, his iron pipe was not detected in the existing blacktop roadway, as it was undoubtedly graded out during new roadway work in 1996 or so, according to local resident James V. Ouimette, who witnessed and generally agreed with corner location as he had remembered it to be. I reset the corner in the center of a triangle scribed from record BTs and nearest Margitan monument to East as a "best fit" position to a tolerance of 0.20', which also falls on centerline of new blacktop roadway.

Plan view map of monument location with bearing and distance ties to a minimum of four(4) described witness or reference monuments of concrete, natural stone, iron, live bearing trees or equivalent material. If applicable, also show a minimum of two(2) bearing and distance ties to any other monument found and not accepted; including the bearing and distance from the accepted monument. Indicate the basis for bearings of reference ties if not referenced to magnetic north.

NORTH This recovery completed May 14, 1998

### WITNESS MONUMENT TIES:

- ① 1 1/4" dia. iron pipe found with no cap top 10" above grade N03°E at 30.00'.
- ② New BT 8" Pw N54°E 71.00'.
- ③ Record BT 32" Pw N72°E 168.00' to PK/washer in SW face at DBH.
- ④ New BT 6" Balsam S67°E 62.06'.
- ⑤ Record BT 16" Pw tall dead stub S12°E 115.5' to open blaze face.
- ⑥ New BT 7" Mr S14°W 46.16'.
- ⑦ New BT 16" Pr S62°W 68.67'.
- ⑧ New BT 14" Pw N62°W 88.54'.

Note: Standard white poly 'T' marker post set 6" North of Witness No. 1.

SCALE: 1" = 40'

Unless otherwise indicated, all bearing tree ties are to a .25" dia. by 2.5" long PK nail with a 1.25" dia. steel washer driven into unblazed right face and a .25" dia. by 2.5" long PK nail with a 2" dia. steel washer stamped 'BT' is also driven into unblazed face of bearing tree at DBH; the basis for measured bearings is magnetic to nearest degree and all tie distances are horizontal measure to nearest 1/100th feet.

### LAND SURVEYOR CERTIFICATION:

I, William C. Rohde, hereby certify that I am a duly licensed Professional Land Surveyor in Wisconsin, that this USPLS monument location was determined by me or under my direction and control, and that this U.S. Public Land Survey Monument Location Record is true and correct to the best of my knowledge and belief.
