

State of Wisconsin }
County of Oneida } ss.

I Robert E. Badow, do hereby certify that on the 20th day of July, 1984, I found evidence of the South one-quarter corner of Section 18 Township 38, North, Range 10 East, Fourth Principal Meridian, as described hereon; and that from this evidence I established a new monument and accessories as described hereon to perpetuate the original location of this corner.

Resident witnesses:

Michael E. Weber

Eric Zyhowski

Kip Soder

● = Corner monument restored.

U. S. Public Land Survey Monument Record

Index No. N-3

History of original corner establishment:

Original corner was established during the course of the subdivision of T 38 N, R 10 E, which was started Sept. 7, 1863 and completed Sept. 13, 1863, by William E. Daugherty, Deputy Surveyor.

Original B.T.'s:

10" Cedar S 78° W 30 lks.
No other tree near.

Description of corner evidence found:

Found a 1-1/2" iron pipe in place used in a previous survey by Todd Loftus, dated 3/20/80.

Found the following bearing trees in place:

8" W. Birch S 23° E 17.73' (Measurements are to a nail in
6" W. Birch S 75° W 25.15' the side of the trees.)

Description of monument and accessories I established to perpetuate the original location of this corner.

No other suitable trees near for bearing trees.

Dated at Eagle River, Wis., this 14th day of Sept., 1984.

Describe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as previously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (d), above. Show the distances between the corner as previously restored or reestablished and (1) the corner as restored or reestablished, and (2) to at least 2 of the witness monuments shown on the drawing in (d), above.
See sketch below.

Was the corner restored through acceptance of (1) an obliterated evidence location, or, (2) a found perpetuated location?

Corner was restored through acceptance of a found perpetuated location.

Was the corner reestablished through lost corner proportionate methods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning in determining the corner location?

See sketch below.
