Township 39 North, Range II East Fourth Principal Meridian

COUNTY OF ONEIDA, STATE OF WISCONSIN

SURVEY NOTES

This survey was made by the U.S. Department of Agriculture, Forest Service, to establish and mark controlling interior subdivision corners of U.S. Government land.

The original Government subdivision survey of this township was made in 1859. A dependent resurvey of the east half of the township was made by the U.S. Department of Interior, General Land Office, in 1941. The corners of the dependent resurvey on the perimeter of section 12 were recovered as control for the subdivision survey of section 12. All U.S. Government land in section 12 was acquired in 1931.

CORNERS ESTABLISHED

1. <u>Center Quarter Corner</u> - Position established on the intersection of the straight lines between opposing 1941 dependent resurvey quarter corners on the perimeter of section 12. Corner references:

Metal sign post Southwest 1.0 feet SE Corner Cabin N. 38° W. 44.90 feet

2. South Sixteenth Corner to Sections 7-12, T39N, Rs.11-12E
Position established at mid-point and on line between the southeast corner and the east quarter corner of section 12.

Corner references:

Red Pine 4"

S. 24°26' E.

White Pine 11"

S. 68°02' W.

Cedar Sign Post

Center Road

S. 24°26' E.

38.95 feet

25.44 feet

1.4 feet

15 feet

3. North Sixteenth Corner to Sections 11-12

Position established at mid-point and on line between the northwest corner and the west quarter corner of section 12.

Corner references:

 Maple 9"
 N. 32° W.
 20.16 feet

 White Birch 10"

do hereby

Original Government Survey in 1859 by William E. Daugherty. ner establishnient:

in 1941. By proportionate measure set a concrete monument 6" dia. with a brass cap marked; 1, S11, S12, 1941. Blazed and scribed the following B.T.'S: A dependent resurvey of the township was executed by the General Land Office

N.Pine N.Pine 8 6 S20°E 29¼ 1ks 19.47 feet S17-45'W 31 1ks 21.46 f 31 lks 21.46 feet

Corner of Section ... North, Range Township 39 ... North, Range 11 East ..., Fourth Principal Meridian,

as described hereon; and that from this evidence

I established a new monument and accessories

as described hereon to perpetuate the original

location of this corner.

Resident witnesses:

Robert Conquest

certify that on the 1st day of August 1989, I found evidence of the East one-quarter corner of Section 11

Description of corner evidence found:

Found monument as described and in place, from which the following bear;

N. Pine N. Pine 16" 18" S20°E S18°W 20.15 feet 18.92 feet

Description of monument and accessories I established to perpetuate the original location of this corner.

15" 12" N53°W 16.35 feet 19.54 feet

Blazed and scribed the following bearing trees;

Steel sign post East 0.50 feet

ByDeputy	(Register of Deeds)	Office of Register of Deeds, County of, I hereby certify that the within instrument was filed in this office for record on the, that the within at, o'clock, M.	Signature Sund Surveyor, Registered Land Surveyor, or other duly authorized official) Registered Land Surveyor, or other duly authorized official)	Dated at Three Lakes /) Wis. this 25 day of August 19.89
		ereby certify that the within	Registration No. S-1731	, 19 89

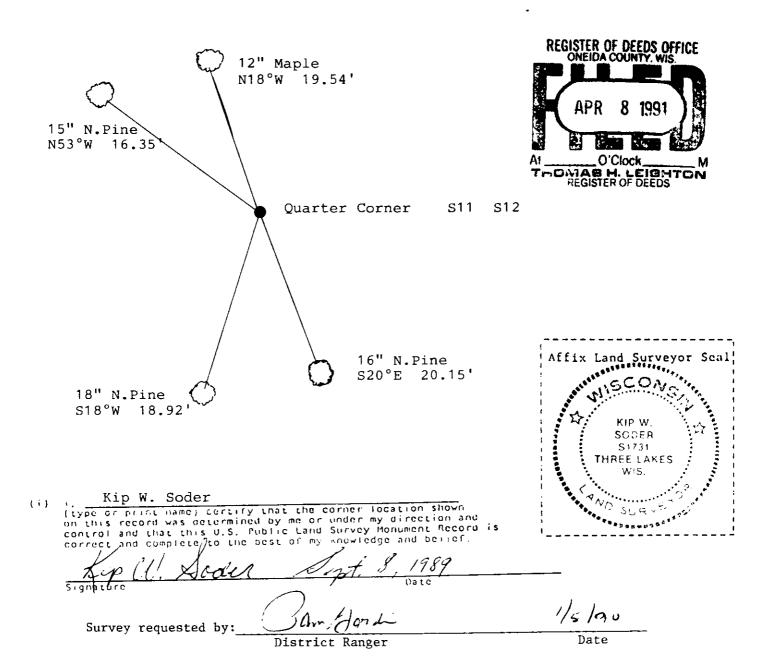

Describe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as previously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (d), above. Show the distances between the corner as previously restored or reestablished and (1) the corner as restored or reestablished, and (2) to at least 2 of the witness monuments shown on the drawing in (d), above.

See drawing below.

(f) was the corner restored through acceptance of (1) an obliterated evidence location, or, (2) a found perpetuated location?

Restored through acceptance of a found perpetuated location.

(gkh) Has the corner reestablished through lost corner proportionate mothods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning in determining the corner location?

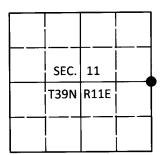

U.S. PUBLIC LAND SURVEY MONUMENT RECORD

Note: This form is intended and designed to fulfill all requirements of Wisconsin Administrative Code, Chapter A-E 7.08 U.S. Public Land Survey Monument Record (3)(a-i).

(a) CORNER LOCATION 1/4 Cor. of Secs. 11 & 12 Township 39 North Range 11 East of the 4th P.M. Town of Three Lakes County of Oneida

WISCRS - Oneida County N: 251,322.76 USft E: 351,027.83 USft Datum: NAD 83(2011) **GNSS Method: RTN Offset GNSS Control: WISCORS VRS**

(b) HISTORY OF ORIGINAL CORNER ESTABLISHMENT

Original Surveyor:

Original Accessories:

Date of Survey

Commenced:

Completed:

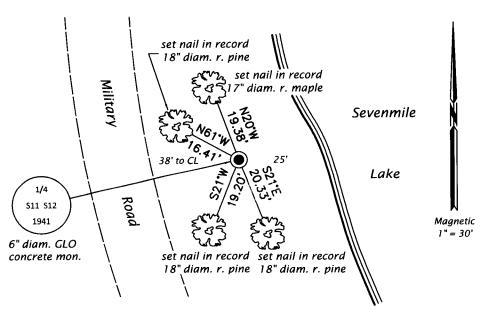

(b)(f)(g)(h) Description of monument found at this corner and if it was accepted, state all evidence (material, testimonial, occupational, plats, records, other monuments) used as a basis for accepting. If not accepted or if nothing was found, state evidence used as basis for establishing location. If re-established through lost corner proportionate methods, indicate all monuments, distances and directions used to establish. Indicate type of monument and sign post found or set.

This is a perpetuation of a previous USPLS Monument Record by Kip W. Soder, RLS dated August 25, 1989 and filed in the office of the Oneida County Register of Deeds. A complete history of the corner can be found on the previous monument record. I accept the previous location as a true and faithful perpetuation or reestablishment of the original corner location and further perpetuate it as follows.

May 12, 2017: Jeff Austin visited the corner and recovered the record monument, a 6" diam. concrete monument with a 2-1/2" diam. GLO brass tablet flush with the ground surface. Accessories were found or established as shown below. A USFS steel sign post was found East, 0.8 ft.

The coordinate value shown has been verified by at least one of the following methods: 1) comparison to a previously GPS determined published value; 2) the value is the average of two or more GPS observations at a markedly different time; 3) one or more distances were measured back to the GPS observed corner from temporary GPS observed offset locations.

(c)(d)(e) Plan view of corner with ties to at least 4 witness monuments. If in disagreement with previously established corner, show the distances between the two corners and also indicate the ties to the disputed.

(i) I, Michael J. Romportl, Professional Land Surveyor No. S-1624, hereby certify that the corner location on this record was determined by me or under my direction and control and that this U.S. Public Land Survey Monument Record is correct and complete to the best of my knowledge and belief.
