SURVEYOR'S NOTES:

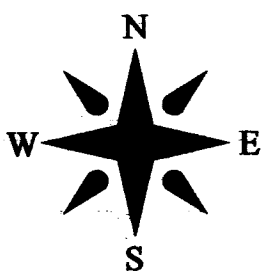

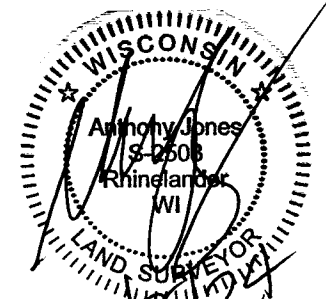

- This survey was done without a title search provided. There may be other burdens or benefits affecting this property that are not shown here.
- This survey was done without an ordinary high water mark determination. Should a determination be required, contact the appropriate agency.
- Due to snow cover and icy conditions, the edges of Home Resort Lane, existing driveways and the shore of the Rhinelander Flowage could not be determined accurately and should be considered approximate, as shown here. There may be other improvements that were not obvious, due to snow cover.
- The tree line along the west boundary straddles the line from north to south
