

SURVEY LANDMARK PRESERVATION RECORD

It is the primary purpose of this record to preserve the location of any survey landmark subject to disturbance, removal or to be rendered inaccessible, as provided by Section 59.74(2), Perpetuation of Landmarks, Wisconsin Revised Statutes.

County: Oneida	City, Village, Town: Pelican	Section: 16	Town: 36N	Range: 9 East
----------------	------------------------------	-------------	-----------	---------------

Describe survey landmark found or reset and origin if known, such as being a 1/16 corner, called for in a deed or shown on a record land survey map or plat; also note location by Govt Lot, 1/4 section or other PLSS subdivisional tract.

This corner checked at the request of Oneida County Surveyor, as corner area road junction was reportedly dug in to remove a rock.

I found record railroad spike at the corner undisturbed per U.S. Public Land Survey Monument Location record dated May 9, 1994 by Milo E. Stefan/RLS 1558 and filed in Oneida County records, as roadway had been excavated and backfilled in an area about 6'x8' about 15' North of the corner.

All record witnesses appeared to be OK; however, as a precaution in the event that any further digging may take place in the roadway intersection, I measured additional ties as noted below to facilitate easier replacement of the corner should it be necessary in the future.

I inspected corner location on July 13, 2004.
