Stock No. 26273

MAP OF SURVEY

24 19 RETRACEMENT OF RANGE LINE BETWEEN 25 30 CORNER AS RECORDED PRICE AND ONEIDA COUNTIES, TOWNSHIP 36 NORTH, RANGES 3 AND 4 EAST, N3520-E0300 PRICE CO. SURVEYOR RECORDS. 300°10'14" | 2629.95 FROM THE EAST 1/4 CORNER OF SECTION CORNER IS II FEET WEST OF CENTER LINE OF EXISTING ROAD 36 TO THE NORTHEAST CORNER OF SECTION 25, T 36 N, R 03 E. TOWN OF KNOX. RECOVERED 2" x 36" ABOVE GROUND IRON PIPE WITH BRASS CAP STAMPED AS 1/4 CORNER. PERPETUATED TO PRICE COUNTY STANDARD. 22 DEER FENCE 22 FEET WEST OF LINE. SURVEY NOTES: THIS SURVEY WAS MADE AT THE REQUEST OF THE KNOX TOWN CHAIRMAN TO LOCATE THE THE SECTION LINES SEPERATING PRICE AND ONEIDA COUNTIES. PRICE COUNTY RECORDS FB 86-17 THRU 22 AND V-1583 AND V-2056 WERE USED TO ASCERTAIN THE LOCATION OF THE PUBLIC LAND CORNERS. CORNER IS 23 FEET WEST OF CENTER LINE OF EXISTING ROAD IN 1937 SURVEYOR MITCHEL SET THE MONUMENT AT THE EAST 1/4 OF SECTION 25, WHILE SUBDIVDING SECTION 25. HIS NOTES SHOW AN "OLD TOWN ROAD" TO THE SOUTH OF THE CORNER AND A "BRUSH ROAD" WITH "1/2 MILE DITCHED" TO THE NORTH. 1316.57 GATE END OF TOWN MAINTAINED ROAD 4210 FEET NORTH OF EAST 1/4 CORNER OF SECTION 36. 17.5 AT THE WEST 1/4 OF SECTION 25, MITCHEL FOUND A CAR SPRING IN THE ROAD AND OFF SET HIS MONUMENT. AT THE EAST QUARTER HE FOUND A WOOD POST WHICH WAS NOT IN THE ROAD, BECAUSE HE DOES NOT OFF SET THE NEW MONUMENT. YEST OF 2633.14 S I/16 CORNER SET A STEEL T-POST AT CORNER . 27 FEET WEST OF CENTER LINE OF CLIFFORD ROAD.

THE EAST 1/4 CORNER OF SECTION 36 IS SET IN THE INTERSECTION OF ROADS BASED ON SURVEYOR VAUGHANS 1914 SURVEY WHICH BEGAN THERE. I CONSULTED WITH ONEIDA COUNTY SURVEYOR, MIKE ROMPORTL, AND AGREED THAT THIS WAS THE PROPER LOCATION.

THE SOUTHEAST CORNER OF SECTION 25 WAS PROPORTIONED ON LINE BETWEEN THE QUARTER CORNERS NORTH AND SOUTH BASED ON THE 1914 DISTANCES OF VAUGHAN. THIS FIT WELL WITH THE MEASURED DISTANCE AND BEARING FROM THE FOUND CORNERS OF MITCHEL IN 1937 TO THE NORTH.

BECAUSE THE 1/4 CORNER AND SECTION CORNER NORTH OF THE SOUTHEAST CORNER OF 25 FELL WEST OFF THE EXISTING ROAD, AND THE BEARING FIT SO WELL, I FELT THIS WAS THE BEST METHOD TO RESTORE THE SECTION CORNER.

SURVEY WAS MADE USING REAL TIME KINEMATIC GPS. BEARING AND DISTANCES ARE GRID, BASED ON WISCONSIN NORTH ZONE STATE PLANE COORDINATES.

THE MAP AND ACCOMPANYING NOTES ARE CORRECT AND ACCURATE TO THE BEST OF MY KNOWLEDGE AND BELIEF.
