Mr. Herbert Moore
Oneida County Surveyor
Courthouse
Rhinelander, Wisconsin 54501

Dear Mr. Moore:

SUBJECT: Land Corners
Project I.D. 1591-3-00
Lake George-Monico
U.S.H. 8
Oneida County

This is in reference to your phone conversation with Bill Scherer, district survey supervisor, on February 28, 1974, relative to the N.W. corner of Section 19, T.36N., R.10E., approximately one mile east of Lake George, in the Town of Pelican.

As you will recall, a local landowner notified us that the iron pipe and Oneida County brass cap marking said corner had been disturbed and that it was lying in the ditch along old U.S.H. 8.

In August of 1973, during the staking of right of way for the proposed relocation of present U.S.H. 8, our survey crew found and reset the subject pipe and brass cap.

The corner is located within the limits of the proposed right of way and will be perpetuated during construction operations. Upon completion of the perpetuation, we will submit to you a copy of our field notes.

Any questions you may have relative to this matter, please contact Bill Scherer of this office.

Sincerely,

R. O. Schindelholz, District Engineer

G. W. Crossen

G. W. Crossen
District Chief Planning & Design Engineer
