County Mileage Summary Report
Oneida County
January 1, 1956

W. B. Blair
Director of Finance
March 5, 1956

This is with further reference to your memorandum of January 11, relative to the change in location of connecting streets for the city of Rhinelander. We have checked the information submitted in your memorandum with the Maintenance Section and with the State Traffic Engineer. We find that your report to the Maintenance Section specifically states that there have been no changes in connecting streets in the city of Rhinelander as compared to the previous year. Mr. Volk also specified that they had not changed the marking to the new route designated on your city plat.

We examined the Commission minutes of December 23, 1954, and discovered that that action was the customary one taken prior to constructing a new route on the state trunk or connecting street systems. Incidentally that portion of the connecting street indicated as lying along Arbutus Street was not a portion of the completed final connecting street route designated in the minutes of December 23, 1954. As we understand the situation, there will eventually be a change in the connecting streets for S.T.H. 47 as well as U.S.H. 6. However, until such time as the Commission has officially changed the connecting street location in the city of Rhinelander, and the Traffic Department changes the markings thereon, the old route shall be shown.

In keeping with the above, we have reversed the corrections made on the street list for the city of Rhinelander on the four following streets: Park Street, Main Street, Kemp Street, and Arbutus Street. After making such correction on the county mileage summary, the total mileage for the city of Rhinelander is as follows:

State Trunk Highway System	0.95 miles
Connecting Streets	1.59 "
County Trunk Highways	0.99 "
Local Roads and Streets	11.13 "
Total	13.66 Miles

We have also corrected the city plat in accordance with the above. This information is being transmitted so that you may correct your records accordingly.
