SURVEY NOTES

This survey was made by the U S Department of Agriculture, Forest Service for the purpose of recovering, restoring, establishing, marking, and perpetuating the corners and boundary lines of U S Government land on the perimeter and within Section 24, Township 38 North, Range 11 East Fourth Principal Meridian, Oneida County, State of Wisconsin as shown on the Plat map herewith

The U S Government land within Section 24 was acquired in 1936, 39, 40, 43 and 1950

The original government subdivision of this township was made in 1859, and resurveyd by G L O in 1941

The bearings between corner positions are true bearings as determined by reference to solar observations. The accuracy of this survey exceeds the State requirement for closure of 1 in 3,000. Corners recovered or established by this survey are marked as described in the map legend. Each monumented corner is referenced to blazed, scribed painted and tagged bearing trees. The bearings are magnetic, and not corrected for declination.

The field notes and a copy of the Plat of survey are on file in the Forest Service Supervisor's Office at Rhinelander, Wisconsin
