Gentlemen:

We are sending you a petition to extend the existing Town Road to the north line of our lake property. This would necessitate extending the road a distance of approximately fifty (50) feet.

We have contacted Herb Guth and Erwin Ruppel in regard to building our summer home but are unable to make any commitments because of the lack of road access to our lot.

Will you please notify us when action on this petition will be taken as we would like to build this fall?

Sincerely yours

Re: Extension Town Road - 50 Ft.

Dear Mr & Mrs Geegeline:

Sec-13 T-35 R-10E

Your letter, and petition, ⁸⁻¹¹⁻⁶⁰ dated August 18th sent by Certified Mail (405442) received.

Our Chairman was out of town at the time your letter was received so the first opportunity I had to present it was at September 13th Town Board Meeting.

The Committee on roads will check on the situation and as soon as there is concrete information on this program I will be glad to advise further.

Relative to your statement regarding building this fall. Please be sure and get in touch with me first as your Application for building will have to be approved by the County Zoning Administrator. I have the necessary forms in my office and will be glad to assist you.

Kindest regards.

Yours truly,

On Oct. 9, we came up to Pelican Lake & contacted Mr. Guth who informed us that the Town Board had authorized him to extend the town road to the north line of our property. He will do this work in the near future.

Due to the lateness of the building season it is impractical to build now; but it is suggested that we have the concrete footing poured so it will season over winter. We would then build in spring as early as possible. Mr. Kuppel, who will put in the footing, is of the opinion that since this cost is under \$500 no permit is needed at this time. However, if Mr. Kuppel is in error in his opinion, would you notify him immediately that he cannot start any work without a permit?

Would you please send me the forms that are needed for this work?
