 of Section 26, T. 35 North, R. 10 E. of 4th P.M.  
 Oneida County, Wisconsin  
 Scale 1 inch = 5 chains

Surveyor's Certificate

1. Harry C. Hall, do hereby certify: That in May, 1931, in surveying Dorr Lot 4 Sec. 26 - 35-10 E. for C.R. Guth's Unrecorded Plat, I retraced the original west line of the section and the original south line of the section and accepted the east line of the section as run by B.F. Dorr in 1901, I also accepted Dorr's 1/8 sec. line between Dorr Lots 4-5 which forms the west line of Pelican South Shore Resorts Plat (Recorded in Vol. 3 Plats, Page 9); For an intermediate west line of Sec. 26 I took the mean between the course of the west line of the SW Quarter and the course direct from the SW corner to the M.C. For the N+S quarter section line I ran on a course intermediate between the east line and the aforementioned mean west line. I ran the SW quarter-sec. line parallel to a latitudinal line drawn thru the SE + SW corners of the section; That the map hereon drawn correctly represents my survey of Sec. 26 in chains and decimals thereof and the manner in which the corners were marked and perpetuated.

Survey of Section 26. TP. 35 N. Oneida County Scale 1 inch = 200 feet

Surveyor's Certificate

I, Harry C. Hall, do hereby certify that I have surveyed and retraced the original west line of the section and accepted the line as shown on the plat. I have also accepted the east line of the section as shown on the plat. The line between the east line and the west line of the SW quarter of the section is an intermediate line between the east line and the west line of the SW quarter of the section. I ran the SW + SW corners of the section correctly represents my own and decimals thereof were marked and perpetuated.
